
Objective:

Contribute and expand skills of design and development for a company focused on web-based technology.

Work Experience

Senior Web Designer: 8/06 - Present

Sesame Communications, Inc., Seattle, WA

- Design and develop full websites for clients. Process involves creating design comps, revising based on client feedback, then building and delivering completed product.
- Perform in close coordination with project managers while adhering to strict deadline metrics.
- Support in-house marketing initiatives, maintenance of proprietary tools, and design/development of new material for proprietary content.
- Design and develop widgets using Flash to play video and create interactive e-cards.
- Assist management to review and evaluate potential applicants for design and development positions.

Web Designer: 3/05 - 8/06

Verizon Superpages, Everett, WA

- Designed and developed websites for small businesses advertising through Verizon Superpages.
- Created Flash animations for website introductions and banners.
- Consulted with clients to determine needs for design and functionality of websites.

Web Designer / Video Editor: 11/04 - 2/05

Champion Visions World, Inc., Seattle, WA

- Developed corporate website to showcase current DVD products.
- Edited and compressed video for multiple platforms.
- Designed user interfaces and authored DVDs.
